Telemet has recently partnered with Flyer Financial which offers professional investors an order management system (OMS) called "Co-Pilot". With Co-Pilot you manage your multi-asset (equities, mutual funds, options, futures) end-to-end trade order management lifecycle. This includes order upload, order blocking, manual order entry, dynamic order routing, inclusion of execution instructions, algorithmic trading and more.

Co-Pilot supports all major order types, connectivity to over 100 executing brokers and destinations, transmission of commission and fee information, and numerous order handling options.

Co-Pilot joins a family of OMS that Telemet supports including Advent Moxy, InData, and Ridgeline.
