New Telemet Features

Bid/Ask and Open Interest Now Available for ICE Futures

Some of our clients that subscribe to real-time futures have requested open interest figures and bid/asked data on futures to see the most liquid futures contracts. We have started delivering these data for ICE futures and plan over the next month to add these same data for CME and other markets.

To see the open interest and bid/asked data, add these columns to a custom page. Your workspaces have one prebuilt called "Futures Current Contracts" and it is easy to add open interest to the display.

To add the Open Interest column -

Click on "Options" on the Futures Contract display window
Then type "Open" in the Find Box,
Select "Open Interest" and click on "OK".
Then click on Display "Save".

Ask your client service rep for help if you need it.

Just send an email to Support@taquote.com, use "Chat" or give us a call at 800-368-2078.

Portfolio Attribution and New Asset Class

Many of you are using our portfolio attribution module to see performance, sector analysis and relative

returns on your equity portfolios compared to your chosen benchmark. With Telemet attribution, bundled into our platform, you see sector under and over weighting, which sector weightings worked, and within each sector, which stocks worked for any calendar period.

Now we have added mutual funds as a new asset class in our attribution module. Our attribution module now shows the total returns on investment in funds over any calendar period. This offers those of you using funds a larger picture of performance and relative returns.

Email support@taquote.com for more help on this.

Announcing New Telemet Team Member

Shannon Basler Joins Telemet as New England Rep

Shannon Basler's 30 years of experience in buy-side information systems is a great resource for Telemet clients and prospects and known to many in New England. Shannon was an account manager at FIS/SunGard for 8 years and before that at Thomson Reuters for 5 years selling market data, compliance, operations and trading solutions. She has a BA from Catholic University in Washington DC and is registered with FINRA Series 7 and 63 Licenses. She resides in Scituate with her husband and young son.

Shannon can be reached at 781.363.2639 or email shannon@taquote.com.

New Computer? Latest Version?

Getting a New Computer?

Lucky you! if you are planning to get a new computer, make a replication file of your Telemet Orion platform before you do the upgrade. All your settings, workspaces and displays then can be loaded immediately. Here is the [link](#) on how to do this.

Are you Running the Latest Software Version?

Our latest Telemet Orion software is v8.2.05.17. Get a copy [here](#).

Webinar

Time-Saving Tips using Telemet

Our latest Webinar was called "Timesaving Tips". You may know how to get market quotes and news from Telemet, but may be unfamiliar with some new timesaving features.

These features were designed to enhance Telemet's ease-of-use and thus your own productivity.

The Webinar was on Thursday, June 7th and was recorded for those that missed it.

Here is the link to the recorded [Webinar](#)

To get help to find or review past webinars which contain valuable orientation materials on charts, spreadsheets and attribution, call/email or chat with a member of your client service team, 800-368-2078 or support@taquote.com.
